

### REMARKS

The Applicants request that the Examiner enter this Preliminary Amendment prior to examining the case. The designations "cm<sup>2</sup>" and "centimeter" have been changed to "in<sup>2</sup>" and "inch" to correct the units of square area relating to the power densities. The power levels disclosed in watts in the original specification, *e.g.* 100 watts for the 200 mm (8") wafer, provides support for the change in units.

Respectfully submitted,
